Contract for Research in Biological Sciences

DEADLINE for registration: Third Friday of each semester

**We encourage applicants (particularly 1st time applicants) to not wait until the deadline***
Please register in person with the Director of Advising (biology.rutgers.edu/advising).

Student Name: ___________________________ RU ID# ___________________________

Student RU Email: ___________________________ Current Overall GPA________________________

Student: Please attach a one page research proposal, written by you, to this application.
- The proposal must have a description of the background information necessary to understand and justify the work, a specific hypothesis to be tested, a detailed description of the data that you will collect, and a prediction about the results you will obtain.
- The proposal should also justify the number of credits for which you would like to register.
- Please see the advisor and http://biology.rutgers.edu/biological-sciences/research for further information.

Student: Please read and initial:
_____ I understand that my project must be approved by the Bio advisor and revisions of my proposal may be required before I can be registered.
_____ I understand the requirements for Research in Biology.
_____ I must test a specific hypothesis and collect data in order to support or refute that hypothesis.
_____ I must work at least 4-5 hours per week per credit.
_____ I may not be financially compensated or receive credit through another department for any hours that I am applying toward my Research in Biology credit hours.
_____ I am aware that I must submit a written, graded paper (for guidelines, see biology.rutgers.edu/biological-sciences/research or course Sakai site) and that this is due, graded by my research supervisor, by 5pm of the second reading day at the end of the semester.

Circle the appropriate course number (ask the advisor if you have questions) # Credits (1-4)

Faculty Research Advisor’s Name ___________________________

Faculty Advisor’s Department ___________________________ phone # __________________

Email address: __________________________________________________________

Faculty: Please read and initial:
_____ I understand that students conducting research in the Biological Sciences must test a specific hypothesis and must collect data.
_____ I further understand that students must complete a research manuscript and that I must grade this paper and return it to the student for submission. A rubric will be provided.
_____ It is the student’s responsibility to give me the paper in a timely manner in order to meet the deadline of having it ready for submission and graded by the second reading day at the end of the semester.
_____ The grade in the research course is determined both by the quality of the student’s lab work and by the quality of the paper.
_____ Students are expected to work at least 4-5 hours per week per credit and may not apply paid or research for credit through other departments toward their Research in Biology hours requirement.
_____ Work that is mostly a literature review should be registered as an Independent Study 119:201 or 202. Please email the Biological Sciences advisor (advisor@biology.rutgers.edu) if you have any additional questions.
